Treasury Financing Operations

Refunding of the February Certificates

On January 27, 1953, the Secretary of the Treasury announced the intention of the Treasury to offer on February 2 a choice of one-year certificates of indebtedness or a five- to six-year security in exchange for the 11-1/2 month 1-7/8 percent certificates maturing on February 15. The announcement stated that of the $8,868 million total of the maturing certificates approximately $3.7 billion were held by the Federal Reserve Banks, about $2.3 billion by commercial banks, and the remainder by corporations and other nonbank investors. The bulk of the maturing certificates was thus held by investors who preferred short-term securities; the new offering, however, would give any holders who might wish to do so an opportunity to extend their maturities, the announcement concluded.

Interest rates on the offerings were announced on January 30. The interest rate on the one-year certificate is 2-1/4 percent per annum, and the alternative security is a five-year ten-month bond bearing interest at the rate of 2-1/2 percent per annum.

Full details of the certificate and bond offerings were given in the official circulars dated Monday, February 2, 1953. Exchangee were made par for par; and cash subscriptions were not received. The new certificates, Series A-1954, are dated February 15, 1953, and bear interest from that date payable with the principal at maturity on February 15, 1954. They were issued in bearer form only, in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. The new 2-1/2 percent Treasury bonds of 1958 are dated February 15, 1953, and bear interest from that date payable on a semiannual basis on June 15 and December 15 in each year until the principal amount becomes payable. They will mature December 15, 1958, and will not be subject to call before maturity. Bearer bonds with interest coupons attached and bonds registered as to principal and interest were issued in denominations of $500, $1,000, $5,000, $10,000, $100,000, and $1,000,000. Subscription books were closed at the close of business on February 5.

According to preliminary reports as of February 9, subscriptions for the new offerings totaled $8,731 million, approximately 98-1/2 percent of the maturing certificates. Subscriptions to the certificates, Series A-1954, totaled $8,112 million, and subscriptions to the 2-1/2 percent bonds of 1958 totaled $619 million, leaving $137 million of the total to be paid in cash.

Treasury Bills Refunded

Five issues of Treasury bills matured in January in the total of $6.9 billion. They were refunded by equivalent total and weekly issues. The offering dated January 2 was for $1.2 billion, that dated January 29 for $1.5 billion, and the offerings dated January 8, 15, and 22 were for $1.4 billion each. The average rates of discount on the new issues were 2.191 percent for January 2, 1.986 percent for January 8, 2.124 percent for January 15, 2.097 percent for January 22, and 1.961 percent for January 29.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin", in the tables on "Offerings" and "Disposition", respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills".

Source: Actual figures from Daily Treasury Statement; estimates based on 1954 Budget document, released January 9, 1953. Expenditure classifications shown here differ somewhat from those in the Budget.

1/ For further detail, see tables under "Internal Revenue Collections".

2/ Under Current Tax Payment Act of 1943, as amended (26 U.S.C. 1621-1632). Monthly figures include old-age insurance taxes on employers and employees, because these taxes are not separable currently from income tax withheld. Fiscal year figures exclude old-age insurance taxes, on the basis of estimates beginning 1951. For further explanation, see footnote 7.

3/ Corporation income and profits taxes and individual income tax not withheld. Monthly figures include old-age insurance tax on self-employment income, because this tax is not separable currently from income tax not withheld. Fiscal year figures exclude old-age insurance tax, on the basis of estimates beginning 1952. For further explanation, see footnote 7.

4/ Partly estimated beginning January 1951 (see footnote 7).

5/ Consists of receipts for old-age insurance, unemployment insurance, and railroad retirement; for further detail, see Tables 7 and 8. Beginning January 1951, receipts for old-age insurance are estimated as explained in footnote 7. Railroad unemployment insurance contributions for administrative expenses are included in "Other receipts".

6/ Includes proceeds from sale of surplus property and from Government-owned securities; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and repayments on credit to United Kingdom (see Table 4).

7/ For basis of appropriations, see Table 7. Amounts appropriated are equivalent to the amounts of taxes collected and deposited for old-age insurance. The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the old-age insurance taxes on employers and employees and the withheld income tax are paid into the Treasury in combined amounts without separation as to type of tax. The old-age insurance tax on self-employment income, imposed by Public Law 734, is levied and collected as part of the individual income tax, beginning with the taxable year 1951. Beginning January 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury, and are adjusted in later transfers on the basis of wage and self-employment income records maintained by the Federal Security Administrator. For purposes of this table, the amounts credited to the trust fund beginning January 1951 are considered to represent estimated receipts of old-age insurance taxes for corresponding periods. Accordingly, these amounts are included under employment taxes and excluded from total income and profits taxes as shown. Throughout the calendar year 1951, the same amounts were deducted from the combined taxes paid in by employers, and the balance was shown as income tax withheld. Beginning January 1952, the tax on self-employment income is allowed for in the amounts credited to the trust fund, but no breakdown between the two types of old-age insurance taxes is available monthly. Estimates of the breakdown are made on a fiscal year basis beginning 1952.

8/ Interest on refunds is included in Table 5 under "Miscellaneous".

9/ Since monthly figures in these two columns include old-age insurance taxes (see footnotes 2 and 3), they will not add to the total, which excludes those taxes.

Source: Daily Treasury Statement.

1/ Fiscal year ending June 30 of year indicated.

2/ Gross receipts less appropriations to Federal Old-Age and Survivors Insurance Trust Fund and refunds of receipts.

3/ Expenditures are "net", after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts, transactions of the Foreign Economic Cooperation Trust Fund, established under the Economic Cooperation Act of 1948 (62 Stat. 150), and transactions of wholly owned Government corporations and agencies. Beginning November 1950, investments by these corporations and agencies in public debt securities are excluded from budget expenditures and included with other such investments under "Trust account and other transactions". Corresponding adjustments were made in November 1950 and January 1951 for net investments classified as budget expenditures in the period July through October. Budget expenditures exclude also amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on capital transfers and the Foreign Economic Cooperation Trust Fund may be found in the 1952 Annual Report of the Secretary of the Treasury, pages 512 and 513.

Note: This table presents a recapitulation by months, with calendar year as well as fiscal year totals, of budget receipts by principal sources and deductions from budget receipts as they appear in Table 1. Figures as originally published for earlier years have been revised where necessary so as to place each series on a comparable basis for the whole period shown. It is planned to publish a similar recapitulation from time to time in order to bring the information up to date in convenient form for reference. Corresponding data on net receipts (gross budget receipts less deductions) are published each month in Table 6.

1/ Fiscal year ending June 30 of year indicated.

2/ Under Current Tax Payment Act of 1943, effective July 1, 1943, as amended (26 U.S.C. 1621-1632). Victory taxes withheld pursuant to the Revenue Act of 1942 are included in "Other income and profits taxes". Monthly and calendar year figures include old-age insurance taxes on employers and employees beginning January 1952, because these taxes are not thereafter separable currently from income tax withheld. Fiscal year figures exclude old-age insurance taxes, on the basis of estimates beginning 1951. For further explanation, see footnote 8.

3/ For adjustments reflected in these figures, see footnote 9.

4/ Corporation income and profits taxes and individual income tax not withheld. Monthly and calendar year figures include old-age insurance tax on self-employment income beginning with returns filed for taxable year 1951, because this tax is not separable currently from individual income tax. Fiscal year figures exclude old-age insurance tax, on the basis of estimates beginning 1952. For further explanation, see footnote 8.

5/ Partly estimated beginning January 1951 (see footnote 8).

6/ Consists of receipts for old-age insurance under the Federal Insurance Contributions Act, unemployment insurance under the Federal Unemployment Tax Act (taxes on employers of 8 or more), and railroad retirement under the Railroad Retirement Act (taxes on carriers and their employees). Railroad unemployment insurance contributions for administrative expenses are included in "Other receipts". Old-age insurance taxes are partly estimated, beginning January 1951 (see footnote 8).

7/ Includes proceeds from sale of surplus property (act approved October 3, 1944) and from Government-owned securities, deposits resulting from renegotiation of war contracts, and repayments on credit to United Kingdom (see Table 6B, footnote 11).

8/ Appropriations to Federal Old-Age and Survivors Insurance Trust Fund are equivalent to amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the old-age insurance taxes on employers and employees and the withheld income tax are paid into the Treasury in combined amounts without separation as to type of tax. The old-age insurance tax on self-employment income, imposed by Public Law 734, is levied and collected as part of the individual income tax, beginning with the taxable year 1951. Beginning January 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury, and are adjusted in later transfers on the basis of wage and self-employment income records maintained by the Federal Security Administrator. For purposes of this table, the amounts credited to the trust fund beginning January 1951 are considered to represent estimated receipts of old-age insurance taxes for corresponding periods. Accordingly, these amounts are included under employment taxes and excluded from total income and profits taxes as shown. Throughout the calendar year 1951, the same amounts were deducted from the combined taxes paid in by employers, and the balance was shown as income tax withheld. Beginning January 1952, the tax on self-employment income is allowed for in the amounts credited to the trust fund, but no breakdown between the two types of old-age insurance taxes is available monthly. Estimates of the breakdown are made on a fiscal year basis beginning 1952.

9/ Figures reflect adjustments pursuant to Public Law 734 (see footnote 8) as follows: suspension of transfer of current tax receipts in the amount of $113 million in October 1951, $37 million in November 1951, $25 million in January 1952, and $125 million in June 1952, and additional transfer of $14 million in April 1952.

10/ Excludes interest on refunds, which is included in "Miscellaneous expenditures".

Note: This table presents a recapitulation by months, with calendar year as well as fiscal year totals, of budget expenditures under the classifications shown in Tables 2 through 5. Expenditure figures as originally published for earlier years have been reclassified and revised where necessary so as to place each series on a comparable basis for the whole period shown. It is planned to publish a similar recapitulation from time to time in order to bring the information up to date in convenient form for reference. The corresponding data on total budget expenditures are published each month in Table 6, which carries also an explanation of the coverage of the figures. Expenditures are "net", after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury.

1/ Fiscal year ending June 30 of year indicated.

2/ Excludes those expenditures on behalf of the Department of the Air Force which have been made out of appropriations to the Department of the Army.

3/ Includes certain expenditures on behalf of the Department of the Air Force (see footnote 2). Excludes expenditures by the Department of the Army as follows: those classified separately under "National defense and related activities" and under "International finance and aid"; those for river and harbor works and flood control, which are included under "Public works"; and those for the Panama Canal. Defense expenditures for the Panama Canal prior to July 1947 are included under "Other national defense and related activities", and nondefense expenditures are included under "Miscellaneous".

4/ Excludes expenditures by the Department of the Navy classified separately under "National defense and related activities" and under "International finance and aid".

5/ After 1947, expenditures for national defense and related activities were not segregated from other expenditures of the Corporation and its affiliates, shown elsewhere in this table.

6/ Excludes expenditures classified separately under "National defense and related activities". Beginning September 1946, includes expenditures of the War Shipping Administration, transferred to the Commission as of September 1 for liquidation by December 31, 1946, by an act approved July 8, 1946 (60 Stat. 501). Beginning July 1949, expenditures of the Commission until it was abolished are included with those of the Department of Commerce, shown elsewhere in this table (see footnote 19).

7/ Prior to June 1947, expenditures for this purpose are included under "Miscellaneous".

8/ Through June 1947, includes "war" or "national defense" expenditures of various departments and agencies; administrative expenses of the Selective Service System; expenditures of the War Shipping Administration not included under other "national defense" classifications, until the Administration was transferred to the U. S. Maritime Commission for liquidation (see footnote 6); aid to China; and beginning July 1, 1946, the National Advisory Committee for Aeronautics. From July 1947 through February 1948, consists of expenditures of that Committee and the Selective Service System. Thereafter includes also expenditures of the Office of the Secretary of Defense, including retired pay for the military services beginning September 1949.

9/ Subscriptions to the International Monetary Fund and the capital of the International Bank for Reconstruction and Development. Payments to the Bank were made in four equal instalments and amounted to $635 million. That part of the payment to the Fund which appeared as a budget expenditure was made in February 1947 and amounted to $950 million. The balance of the United States quota for the Fund, or $1,800 million, was paid from the Exchange Stabilization Fund. Part of the payment to each institution was made in the form of noninterest-bearing notes to be redeemed as the cash was needed by the Bank and the Fund, respectively (see "Debt Outstanding", Table 1).

10/ Prior to July 1945, the net of Export-Import Bank operations is included under "Miscellaneous" expenditures. The Export-Import Bank Act of 1945 (12 U.S.C. 635-635i) established the Bank as a permanent independent agency of the United States, increased the authorized capital, and gave it statutory powers in addition to those granted by its charter.

11/ A total credit of $3,750 million was authorized by the Financial Agreement of December 6, 1945, which became effective on July 15, 1946. Repayments began on December 31, 1951 (see Table 4).

12/ First authorized by an act "To Provide Assistance to Greece and Turkey", approved May 22 1947 (61 Stat. 103).

13/ Prior to July 1951, consists of expenditures under the Economic Cooperation Act of 1948, as amended (22 U.S.C. 1501-1523). The Mutual Security Act of 1951 (Public Law 165) was approved October 10, 1951. Expenditures for the period July through October 1951 have been reclassified to be comparable with those beginning November 1951 under the new act.

14/ Prior to November 1951, consists of expenditures under the Mutual Defense Assistance Act of 1949, as amended (22 U.S.C. 1571-1604).

15/ Includes principally relief to countries devastated by war, various other foreign relief programs, international children's emergency funds, and loan for construction and furnishing of United Nations Headquarters.

16/ Beginning November 1949, interest on the public debt is reported as an expenditure when it becomes due and payable, as distinguished from the previous practice of showing it as an expenditure when paid by the Treasurer of the United States. Figures for the fiscal year 1950 include not only the interest that became due and payable in that year but also the interest for prior years which had not been presented as of June 30, 1949, for payment by the Treasurer of the United States, amounting to $225 million.

17/ Includes public works undertaken by the Veterans' Administration.

18/ Excludes expenditures by the Department which are included under "National defense and related activities" and "International finance and aid", and those for forest roads and trails, which are included under "Public works".

19/ Excludes expenditures by the Department which are included under "National defense and related activities" and "International finance and aid", and those for public roads, which are included under "Public works"; includes United States Maritime Commission from July 1949 until it was abolished in May 1950 and its functions were transferred into the Department of Commerce by Reorganization Plan No. 21 of 1950.

20/ Excludes those expenditures by housing and home finance agencies which are included under "National defense and related activities"; beginning September 1950, includes Federal National Mortgage Association and prefabricated housing loans program, which were transferred from the Reconstruction Finance Corporation by Reorganization Plans Nos. 22 and 23 of 1950.

21/ Consists of expenditures for the following: public roads, except assistance to Greece and Turkey; public buildings, consisting of construction only, beginning July 1949; Bureau of Community Facilities until it was abolished and its functions were distributed in May 1950 under Reorganization Plans Nos. 15, 16, and 17 of 1950; other activities of the Federal Works Agency until it was abolished by the act of June 30, 1949 (63 Stat. 380) and of predecessor agencies, except expenditures included under "National defense and related activities"; Bureau of Reclamation; Tennessee Valley Authority; river and harbor works and flood control under the Department of the Army; and forest roads and trails under the Department of Agriculture.

22/ Excludes expenditures included under "National defense and related activities". See also footnote 20.

23/ For more detail of these expenditures, see Tables 7, 8, and 9.

24/ Includes expenditures for executive departments and other agencies not included elsewhere and for legislative and judicial functions.

* Less than $500,000.

1/ Excess of expenditures is covered by appropriations by Congress.

2/ Taxes on employers and employees under the Federal Insurance Contributions Act and later amendments (subchapter A of chapter 9 of the Internal Revenue Code - 26 U.S.C. 1400-1432); and tax on self-employment income under the Social Security Act Amendments of 1950 (subchapter E of chapter 1 of the Internal Revenue Code - 26 U.S.C. 480-482). The tax on self-employment income is levied and collected as part of the individual income tax beginning with the taxable year 1951. Beginning January 1951, the receipts shown here are based on estimates (see footnote 4).

3/ Tax on employers of 8 or more under the Federal Unemployment Tax Act and later amendments (26 U.S.C. 1600-1611). Against this tax certain credits not to exceed 90 percent of the total tax are allowed with respect to contributions by the taxpayer to a State fund under a State unemployment compensation law.

4/ Appropriation to the Federal Old-Age and Survivors Insurance Trust Fund equivalent to the amount of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a); see also footnote 2). The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury, and are adjusted in later transfers on the basis of wage and self-employment income records maintained by the Federal Security Administrator. For purposes of this table, beginning January 1951, the same amount as is credited each month to the trust fund is shown as estimated current tax receipts for old-age insurance.

5/ Interest on refunds is included under "Administrative expenses".

6/ For explanation of adjustments in these figures, see Table 1.

7/ Includes expenditures from appropriations made specifically for administrative expenses relating to the Social Security Act, as amended; administrative expenses reimbursed to the General Fund of the Treasury under Section 201 (f) of the Social Security Act, as amended; administrative expenses under the Wagner-Peyser Act of 1933, as amended (29 U.S.C. 49d); and interest on refunds of social security taxes.

8/ Aid to permanently and totally disabled (Title XIV) as added by Social Security Act Amendments of 1950 (Public Law 734), approved August 28,1950.

9/ For unemployment insurance and maintenance of public employment offices; includes expenditures made directly by the Federal Government beginning January 1942 for maintenance of employment offices, and expenditures of the U. S. Employment Service for the period December 1942 through June 1948, when it was not in the Bureau of Employment Security.

1/ The securities shown in this table were issued to the Treasury to finance Government corporations and other agencies, with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables.

2/ Approved September 8, 1950. Securities consist of notes of the Secretary of the Interior (Defense Minerals Exploration Administration), Reconstruction Finance Corporation, Export-Import Bank of Washington, and the Administrator of the Defense Materials Procurement Agency (to whom was transferred from the Administrator of General Services Administration, pursuant to Executive Order 10281 of August 28, 1951, the function of borrowing from the Treasury under the terms of the act).

3/ Excludes securities issued under Defense Production Act.

4/ For slum clearance program; includes also Federal National Mortgage Association and prefabricated housing loans program, which were transferred from the Reconstruction Finance Corporation beginning September 1950; and housing loans for educational institutions, beginning July 1951.

5/ This agency superseded the Economic Cooperation Administration, effective December 30, 1951, pursuant to the Mutual Security Act of 1951 (Public Law 165), approved October 10, 1951, and Executive Order 10300, of November 1, 1951.

6/ For Farmers' Home Administration programs.

7/ For Natural Fibers Revolving Fund; activities have been terminated.

8/ Consists of notes issued by Federal Farm Mortgage Corporation and Home Owners' Loan Corporation prior to 1950 and by Virgin Islands Company in 1948-50, and advances under agreement with Veterans' Administration for direct loan program beginning August 1950. For detail, see "Treasury Bulletin" issues before March 1951.

9/ Notes outstanding in the amount of $9,365 million, including interest, were canceled on June 30, 1948, pursuant to the Government Corporations Appropriation Act, 1949 (62 Stat. 1187).

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For details of these changes see "Treasury Bulletin" for May 1952, page A-1.

In the tables which follow, Series A-F and J sales are shown at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are shown at face value throughout. Matured bonds which have been redeemed are included in redemptions. Data by denominations and sales by States are published on a monthly basis but not in each issue of the "Treasury Bulletin".

TREASURY SAVINGS NOTES

five series: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; and Savings Series A beginning on May 15, 1951.

Details concerning terms and conditions for purchase and redemption and investment yields of Savings Series A appear in the June 1951 issue of the "Treasury Bulletin", page A-1. Similar information with respect to Savings Series D will be found in the October 1948 and September 1949 issues, and with respect to Savings Series C in the October 1945 issue. For investment yields, and tax payment or redemption values of Series A and B, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220, and for sales and redemptions by fiscal years and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Excludes trust departments.
2/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.
3/ Includes those banks and insurance companies not reporting in the Treasury Survey.
4/ United States savings bonds, Series E, F, and J, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.
5/ Holdings by reporting agencies not available.
6/ Excludes guaranteed securities held by the Treasury.
7/ Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding", Table 3, footnote 1.

"Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from $5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

1/ Not quoted on December 31, 1952.
2/ Tax Anticipation Series.
3/ Amount issued on January 2, 1953, was $1,201 million.
4/ Prices are the mean of closing bid and ask quotations in the over-the-counter market, except that prices of Treasury bonds for the period prior to October 1, 1939, are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows, in case of recurrence, are the latest dates.
5/ Not called for redemption on March 15, 1953. Will mature on September 15, 1953.

8/ Included in the average yield of long-term taxable Treasury bonds as shown under "Yields of Treasury and Corporate Bonds".

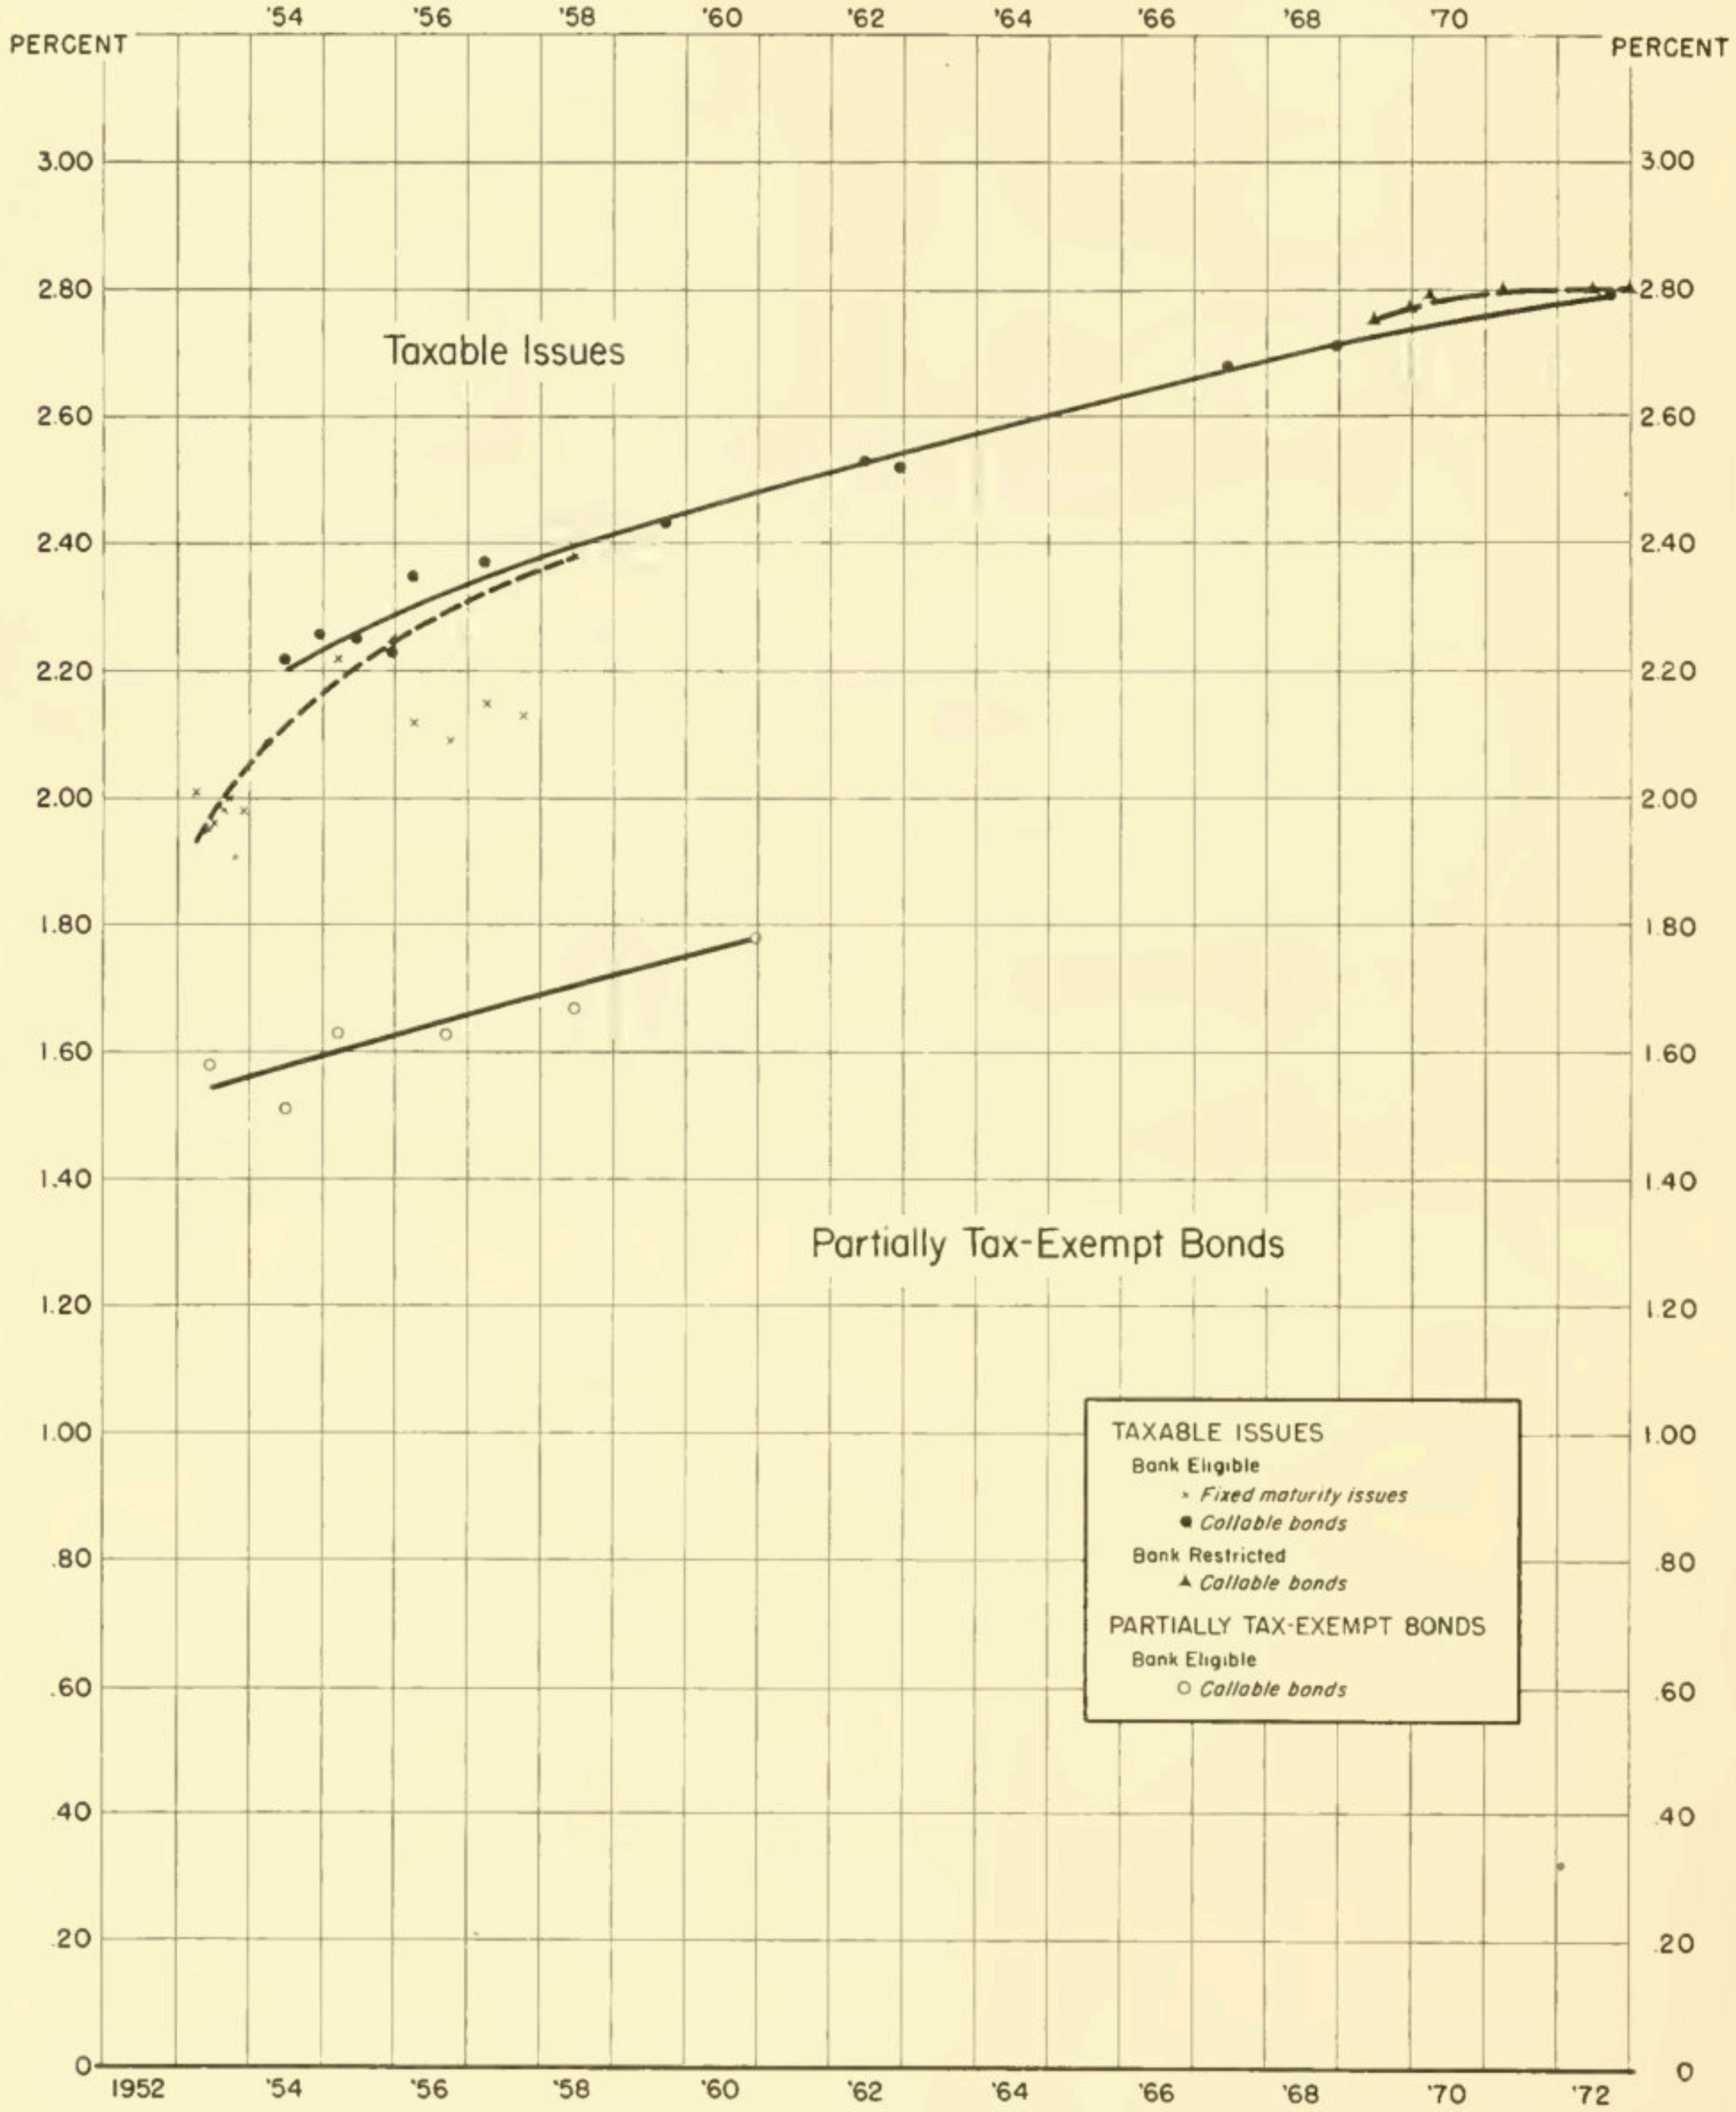
MARKET QUOTATIONS, DECEMBER 31, 1952

YIELDS OF TREASURY SECURITIES, DEC. 31, 1952

Based on Mean of Closing Bid and Ask Quotations



Explanation. The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Note: Treasury bonds included in the averages, beginning April 1952, are those neither due nor callable for twelve years. The minimum length of the bonds included was 15 years from December 1935 through March 1952, and 12 years prior to December 1935 for the period shown in this table. For a discussion of the composition of these Treasury bond averages, see "Treasury Bulletin" for March 1944, page 58; for the composition of the high-grade corporate bond average, see the "Treasury Bulletin" for July 1947, page 59, and January 1945, page 56. Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market as reported to the Treasury by the Federal Reserve Bank of New York, beginning September 2, 1941. Prior to that time, yields were computed on the basis of closing prices on the New York Stock Exchange, except that on days when an issue did not sell the yield was computed on the mean of closing bid and ask quotations on the Exchange. Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.

1/ For definition of taxable and partially tax-exempt bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin". The partially tax-exempt average was discontinued on December 15, 1945, because there were no longer any bonds in this category with fifteen or more years to maturity or first call.

2/ Average revised beginning April 1, 1947. Old average for April 1947 was 2.47%.

3/ As of December 21, 1949, the Consolidated Gas Electric Light and Power Company of Baltimore 2-3/4's of 1981 were dropped from the average, having been called.

4/ As of October 20, 1950, the Standard Oil Company of California 2-3/4's of 1965-66 were dropped from the average, having been called.

5/ The long-term taxable Treasury bond average was revised beginning April 1, 1952 (see "Note"). The old average for April 1952 was 2.62 percent.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by the Bureau of Internal Revenue for collections by type of tax. Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositaries; they do not coincide with amounts reported by the Bureau because of the lag in deposits of collections and because certain taxes are paid directly into the depositaries.

1/ Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 386, approved June 10, 1952, for taxable years ending after that date).

2/ Includes excess profits taxes formerly shown separately as follows: unjust enrichment through 1947 (thereafter these collections are included under "Miscellaneous taxes"); declared value (repealed for years ending after June 30, 1946); Excess Profits Tax Act of 1940 (Title II of the Second Revenue Act of 1940, which was repealed for years ending after December 31, 1945). Includes also excess profits taxes on Army and Navy contracts under the Vinson Act as amended (34 U.S.C. 496) and income tax on business income of exempt organizations, imposed by the Revenue Act of 1951, approved October 20, 1951.

3/ Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952, and it is included under "Old-age insurance taxes".

4/ Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951, and so current collections are not separable as to type of tax. For fiscal years beginning 1951, the breakdown is estimated.

5/ Repealed for years ending after June 30, 1945. Beginning July 1950, included under "Miscellaneous taxes".

Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositaries; they do not coincide with amounts reported by the Bureau because of the lag in deposits of collections and because certain taxes are paid directly into the depositaries.

CAPITAL MOVEMENTS

Data relating to claims on foreigners and liabilities to foreigners, and capital movements between the United States and foreign countries, have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries is reported each month by banks and bankers and securities brokers and dealers in the United States. This information is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. All reports are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury.

The term "foreigners" as used in these reports covers all institutions and individuals (including United States citizens) domiciled outside the United States, as well as international organizations, wherever domiciled, created by treaty or convention between sovereign states. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, basis of reporting, and derivation of capital movements figures appeared in the April 1950 issue of the "Treasury Bulletin", pages 50-52. Revised report forms and regulations became effective with the data for January 1950. Attention is called to the fact that although the grand total figures on the revised reporting basis are reasonably comparable with those for preceding months, data for individual countries in some instances are not comparable because of certain changes in coverage and geographical classification.

The supplementary information, contained in Section IV, is presented in three tables appearing at different times. Table 1 gives data by countries on short-term claims on and liabilities to foreigners as reported quarterly by exporters, importers, and industrial and commercial concerns in the United States. This information was published for the first time in the October 1949 issue of the "Treasury Bulletin" and begins with data for September 30, 1946. Table 2 supplies information by countries on long-term claims on and liabilities to foreigners as reported by banks and bankers in the United States. This table appeared for the first time in the December 1949 issue. Data are for the end of the calendar year beginning with 1942. Table 3 gives information on short-term liabilities to countries not regularly reported separately by banks and bankers. This table appeared for the first time in the April 1950 issue. The data have been requested at irregular intervals, the earliest date being October 1943.
